The name of the Forum shall be "**FIP South East Asia Region (SEARPharm) Forum**", hereinafter called "the Forum".

### Article 4. Legal status

## PART II – DEFINITION, VISION, MISSION AND OBJECTIVES

### Article 5. Definition

The Forum is a regional substructure of FIP.

As such, the mission, vision and objectives of the Forum are those of FIP, operating at a regional scale. For the purpose of the Forum, the region is the South East Asia Region, as defined by the World Health Organization, hereinafter called “the Region”.

In collaboration with the World Health Organization (WHO), FIP fostered the establishment of regional pharmaceutical forums to bring together national pharmaceutical organisations from each of the six geographical regions determined by the WHO: These forums are platforms for professional cooperation, with the aim of enabling the pharmacy profession to have a greater impact on improving health and the efficiency of health care systems through pharmacy services. They also organise professional and educational programs to promote good pharmacy practice and strengthen the pharmacy workforce in the countries and territories of their region. The Forum is a platform for professional cooperation across countries in the Region.

### Article 6. Vision

The vision of the Forum is a world where everyone benefits from access to safe, effective, quality and affordable medicines and health technologies, as well as from pharmaceutical care services provided by pharmacists, in collaboration with other healthcare professionals. The Forum will be guided by this vision in its operations in the Region.

### Article 7. Mission

The mission of the Forum is to support health at global, regional and county level by enabling the advancement of pharmaceutical practice, sciences and education in the Region.

As an integral part of FIP, the Forum shall be guided by the following shared values, all being equally important:

- a. **Caring:** a focus on the individual, and the community;
- b. **Commitment:** to the development of the pharmaceutical sciences, the pharmaceutical professions and to the continued reform and improvement of pharmaceutical education;
- c. **Collaboration:** with all the healthcare parties involved so as to effect positive change;
- d. **Excellence:** promoting and supporting best practices;
- e. **Integrity and transparency:** in every action that is carried out towards FIP members, partners, and other stakeholders;
- f. **Responsibility:** toward both society and FIP members;
- g. **Spirit of inquiry:** welcoming and showing respect for different points of view.

### Article 8. Objectives

The objectives of the Forum are to encourage and support dialogue and collaboration among national and regional pharmaceutical associations in the Region through:

- a. Improving health in the Region and contributing towards the goal of universal health coverage through the development and improvement of pharmacy practice, pharmaceutical sciences and pharmaceutical education and workforce development.
- b. Supporting the implementation of projects aimed at the advancement of pharmacy practice, the pharmaceutical sciences and pharmaceutical education and workforce development in partnership with pharmaceutical organisations of the Region.
- c. Cascading and promoting the implementation of the appropriate policies of FIP and of WHO at a regional level in relation to pharmacy practice, the pharmaceutical sciences and undergraduate, graduate and continuing education programmes for the pharmaceutical workforce.

All the activities, documents and positions of the Forum will be aligned with the principles, policies and priorities of FIP.

#### **Article 9. Rules**

FIP shall make such rules as are deemed necessary for the Forum to achieve its objectives and governance, setting forth procedures to carry out its activities and the Forum abides by these rules.

The Forums will have the autonomy to identify the priorities and needs of the Region in dialogue with their members and FIP and WHO / WHO region. Specific rules may need to be considered on a case-by-case basis. The statutes of the forums will need to be ratified by FIP Bureau, as happens with other FIP substructures.

While autonomous in terms of priorities and projects, the proposed rules should not be contradictory with any FIP rules and should be equitable across all forums. As such, forum rules must not contravene FIP rules or result in inequitable situations between different regions or Forums.

These rules shall have regard to the Forum's structures and officers.

### **PART III – MEMBERS**

#### **Article 10. Membership categories**

The Forum aggregates FIP's members from the Region for collaboration at the regional level. As such, FIP membership is a prerequisite for membership in the Forum, and the Forum's membership categories are aligned with those of FIP.

The Forum comprises of the following Member categories:

- Member Organisations
- Observer Organisations
- Allied Organisations
- Academic Institutional Members.
- Individual Members.

Any reference to members in these Statutes shall be deemed to include all categories of members unless indicated otherwise.

For a definition of the different membership categories, please refer to the FIP statutes.

### **10.1 Member Organisations (MOs)**

Member Organisations of FIP (in good standing) based in the Region will automatically be considered member organisations of the Forum. The conditions of joining all FIP membership categories will be amended to include a statement that joining FIP they agree to be a member of the forum.

FIP accepts that pharmacists or pharmaceutical scientists and pharmacy educators be represented by more than one organisation in a given country, and that any of these organisations may be admitted into membership if they are a member of FIP. Member organisations have speaking and voting rights in a General Assembly of the Forum. The speaking rights of OOs, AOs, AIM and IMs are the same and they do not have voting rights.

### **10.2. Observer Organisations (OOs)**

FIP Observer Organisations (in good standing) based in or operating within the Region, will automatically be considered Observer Organisations of the Forum. Observer organisations may participate in the Forum in the same terms as they participate in FIP.

### **10.3 Allied Organisations (AOs)**

Allied Organisations of FIP (in good standing) based in or operating within the Region will automatically be considered Allied Organisations of the Forum. Allied Organisations may participate in the Forum in the same terms as they participate in FIP.

### **10.4 Academic Institutional Members (AIMs)**

Academic institutional members (AIM) of FIP (in good standing) based in the Region will automatically be considered an AIM of the Forum. The Forum shall provide a regional platform for its AIM members. AIM members will participate in the Forum in the same terms as they participate in FIP.

### **10.5 Individual Members (IMs)**

FIP IMs are not required to be a member of a national association that is a MO of FIP. Similarly, there does not need to be a MO from a country for a pharmacist or pharmaceutical scientist, or pharmacy educators to be an IM from that country. This is an important inclusive issue in nations without profession associations or membership bodies.

Individual Members of FIP, in good standing, who reside in any of the countries or territories in the Region will automatically be considered Individual Members of the Forum. Individual Members may participate in the Forum in the same terms as they participate in FIP.

## **Article 11. Admission of members**

All FIP organisations that are members of FIP are automatically members of the respective regional forum. Any members of the historical forum that are not FIP members, but fulfil FIP membership criteria, will be encouraged to be so and recruited accordingly.

Countries in all regions with pharmacy organisations unable to afford FIP membership or too small to have a globally engaged association tend to be the focus for WHO work and indeed form the focus for much of FIP support. Under the FIP-WHO MoU, FIP and the regional forums will seek to be active in these countries and territories based on needs and priorities.

Ideally low and low-middle income countries should have representation on the forums' ExCos and FIP and the forums will seek to support this as far as is possible based on region, applying many of the ways FIP has to assist organisations and individuals from LICs.

## **Article 12. Member resignation, loss of membership and/or loss of membership benefits**

Member Organisations that no longer fulfil the membership requirements of FIP, will no longer be members of FIP or the Forum. Following three years of non-payment of membership fees, FIP Member Organisations (automatically Forum members) will lose membership in the Forum.

Other membership categories that no longer fulfil the membership requirements of FIP, will no longer be members of FIP or the Forum. The cancellation is automatic, through the FIP Head office, after two consecutive years of non-payment. Cancellation is effective as of 30 April on the second year, as required by the FIP RoP BU-A3 Cancellation of memberships.

## **Article 13. Membership fees**

Every member (organisational or individual) is subject to the payment of an annual FIP membership fee. No specific or additional fees will be charged to be members of the Forum.
